Life for Judeline and her family wasn’t bad three years ago. Although they were poor, her father made a living as a mason and a carpenter. Then suddenly, he went blind and could no longer provide for his family.

Judeline is mentally disabled, though her twin brother is healthy. Because her father was the provider, her mom, Marie, now struggles to find work to support the family. She tries to make a living selling at the marketplace, but work is infrequent.

Her older brother tries to help earn money to provide food for Judeline and the other family members.

Your loving gift to Food For The Poor provides Judeline, and children like her, with food and lifesaving medicine.
