

Ángel, 2, El Salvador

## Ángel

In El Salvador, 2-year-old Ángel is a shy little boy living in a rural community with his family. He suffers from a respiratory illness that makes it hard for him to breathe, especially after it rains.

When he has difficulty breathing, his mother, Vanesa, tries to get him to the nearest clinic as fast as she can, but “it’s hard to go to the clinic when he gets sick,” she said. He gets scared and cries, making his breathing even more difficult. As she carries him on the half-hour walk under a blazing hot tropical sun, she prays she can get him quickly to the doctor.

Your loving gift to Food For The Poor gives Ángel and children like him the medicine and food they desperately need.
