

PROGRESSO – GROUNDS FOR PROGRESS PHASE I

Madriz and Nueva Segovia, Nicaragua

The Need

Many small-scale farming families in the northern Dry Corridor of Nicaragua are unable to secure stable incomes from their coffee production for multiple reasons. The Dry Corridor is stricken by irregular weather, low rainfall, poor soils and a remote location from the capital and other economic hubs. Poverty is widely felt in the area, where most rural families live on less than \$1.90 a day.

How You Can Help

With your help, this project will be able to provide crucial support to 258 small-scale farmers. They will receive agricultural inputs and equipment to better facilitate the production process. They will also be trained and provided with technical assistance to assist them in learning sustainable farming practices, post-harvest management and financial farm management. Additionally, this project will help facilitate the process of creating and commercializing Nicaragua's first single-origin coffee, Café Dipilto. Please prayerfully consider joining with us as we provide so many famers in need with the opportunity to improve their livelihoods and better provide for their families. It would be an honor to partner with you to serve these poor, hardworking Nicaraguan farmers and their families.

Total Project Cost: \$638,845.46
